

**State Environmental Quality Review
FULL ENVIRONMENTAL ASSESSMENT FORM**

Purpose: The full EAF is designed to help applicants and agencies determine, in an orderly manner, whether a project or action may be significant. The question of whether an action may be significant is not always easy to answer. Frequently, there are aspects of a project that are subjective or unmeasurable. It is also understood that those who determine significance may have little or no formal knowledge of the environment or may not be technically expert in environmental analysis. In addition, many who have knowledge in one particular area may not be aware of the broader concerns affecting the question of significance.

The full EAF is intended to provide a method whereby applicants and agencies can be assured that the determination process has been orderly, comprehensive in nature, yet flexible enough to allow introduction of information to fit a project or action.

Full EAF Components: The full EAF is comprised of three parts:

- Part 1:** Provides objective data and information about a given project and its site. By identifying basic project data, it assists a reviewer in the analysis that takes place in Parts 2 and 3.
- Part 2:** Focuses on identifying the range of possible impacts that may occur from a project or action. It provides guidance as to whether an impact is likely to be considered small to moderate or whether it is a potentially-large impact. The form also identifies whether an impact can be mitigated or reduced.
- Part 3:** If any impact in Part 2 is identified as potentially-large, then Part 3 is used to evaluate whether or not the impact is actually important.

DETERMINATION OF SIGNIFICANCE – Type 1 and Unlisted Actions

Identify the Portions of EAF completed for this project: ☒ Part 1 ☐ Part 2 ☐ Part 3

Upon review of the information recorded on this EAF (Parts 1 and 2 and 3 if appropriate), and any other supporting information, and considering both the magnitude and importance of each impact, it is reasonably determined by the lead agency that:

- ☐ A. The project will not result in any large and important impact(s) and, therefore, is one which will not have a significant impact on the environment, therefore a **negative declaration will be prepared.**
- ☐ B. Although the project could have a significant effect on the environment, there will not be a significant effect for this Unlisted Action because the mitigation measures described in PART 3 have been required, therefore a **CONDITIONED negative declaration will be prepared.***
- ☐ C. The project may result in one or more large and important impacts that may have a significant impact on the environment, therefore a **positive declaration will be prepared.**

*A Conditioned Negative Declaration is only valid for Unlisted Actions

Name of Action
Rakowiecki Subdivision

Name of Lead Agency

PART 1-PROJECT INFORMATION

Prepared by Project Sponsor

NOTICE: This document is designed to assist in determining whether the action proposed may have a significant effect on the environment. Please complete the entire form, Parts A through E. Answers to these questions will be considered as part of the application for approval and may be subject to further verification and public review. Provide any additional information you believe will be needed to complete Parts 2 and 3.

It is expected that completion of the full EAF will be dependent on information currently available and will not involve new studies, research or investigation. If information requiring such additional work is unavailable, so indicate and specify each instance.

Name of Action Rakowiecki Subdivision		
Location of Action (include Street Address, Municipality and County) Termination of Ashley Crt, Finley Dr. and Ridgeview Rds, Twn of New Windsor		
Name of Applicant/Sponsor Highview Estates of Orange County, Inc.	Business Telephone (845) 222-0069	
Address P.O. Box 286		
City/PO Salisbury Mills	State NY	Zip Code 12577
Name of Owner(if different) Highview Estates of Orange County, Inc.	Business Telephone ()	
Address		
City/PO	State	Zip Code
Description of Action Proposed 36 Lot Residential Subdivision with Municipal Sewer and Individual Wells		

Please Complete Each Question—Indicate N.A. if not applicable

A. SITE DESCRIPTION

Physical setting of overall project, both developed and undeveloped areas.

1. Present land use: ☐ Urban ☐ Industrial ☐ Commercial ☐ Residential (suburban) ☐ Rural(non-farm)
☒ Forest ☒ Agriculture ☐ Other _____

2. Total acreage of project area: ± 34.4 acres.

APPROXIMATE ACREAGE	PRESENTLY	AFTER COMPLETION
Meadow or Brushland (Non-agricultural)	<u>0.00</u> acres	<u>0.00</u> acres
Forested	<u>23.84</u> acres	<u>6.58</u> acres
Agricultural (Includes orchards, cropland, pasture, etc.)	<u>9.35</u> acres	<u>0.00</u> acres
Wetland(Freshwater or tidal as per Articles 24,25 of ECL)	<u>1.21</u> acres	<u>0.92</u> acres
Water Surface Area	<u>0.00</u> acres	<u>0.00</u> acres
Unvegetated (Rock, earth or fill)	<u>0.00</u> acres	<u>0.00</u> acres
Roads, buildings and other paved surfaces	<u>0.00</u> acres	<u>5.82</u> acres
Other (Indicate type) <u>Landscaped, grass areas</u>	<u>0.00</u> acres	<u>22.0</u> acres

3. What is predominant soil type(s) on project site? Mardin – gravelly silt loam/Erie-extremely stone soils/Alden – extremely stony soils

- a. Soil drainage: ☐ Well drained _____ % of site ☒ Moderately well drained 88 % of site
☒ Poorly drained 12 % of site

- b. If any agricultural land is involved, how many acres of soil are classified within soil group 1 through 4 of the NYS Land Classification System? N/A acres (See 1 NYCRR 370).

4. Are there bedrock outcroppings on project site? ☐ Yes ☒ No
a. What is depth to bedrock? Var none exposed (in feet)
5. Approximate percentage of proposed project site with slopes: ☒ 0-10% 45 % ☒ 10-15% 39 %
☒ 15% or greater 16 %
6. Is project substantially contiguous to, or contain a building, site, or district, listed on the State or the National Registers of Historic Places?
☐ Yes ☒ No
7. Is project substantially contiguous to a site listed on the Register of National Natural Landmarks? ☐ Yes ☒ No
8. What is the depth of the water table? Varies (in feet)
9. Is site located over a primary, principal, or sole source aquifer? ☐ Yes ☒ No
10. Do hunting, fishing or shell fishing opportunities presently exist in the project area? ☐ Yes ☒ No
11. Does project site contain any species of plant or animal life that is identified as threatened or endangered?
☐ Yes ☐ No According to None anticipated-awaiting documentation from NYSDEC
Identify each species _____
12. Are there any unique or unusual land forms on the project site?(i.e., cliffs, dunes, other geological formations)
☐ Yes ☒ No Describe _____
13. Is the project site presently used by the community or neighborhood as an open space or recreation area?
☐ Yes ☒ No If yes, explain _____
14. Does the present site include scenic views known to be important to the community?
☐ Yes ☒ No
15. Streams within or contiguous to project area: N/A
a. Name of Stream and name of River to which it is tributary _____
16. Lakes, ponds, wetland areas within or contiguous to project area:
a. Name Isolated Wetland b. Size (in acres) 1.21
17. Is the site served by existing public utilities? ☒ Yes ☐ No
a) If Yes, does sufficient capacity exist to allow connection? ☒ Yes ☐ No
b) If Yes, will improvements be necessary to allow connection? ☒ Yes ☐ No
18. Is the site located in an agricultural district certified pursuant to Agriculture and Markets Law, Article 25-AA, Section 303 and 304? ☐ Yes ☒ No
19. Is the site located in or substantially contiguous to a Critical Environmental Area designated pursuant to Article 8 of the ECL, and 6 NYCRR 617? ☐ Yes ☒ No
20. Has the site ever been used for the disposal of solid or hazardous wastes? ☐ Yes ☒ No

B. Project Description

1. Physical dimensions and scale of project (fill in dimensions as appropriate)
- a. Total contiguous acreage owned or controlled by project sponsor ± acres.
- b. Project acreage to be developed: ± 28 acres initially; ± 28 acres ultimately.
- c. Project acreage to remain undeveloped 7 acres.
- d. Length of project, in miles: N/A (if appropriate).
- e. If the project is an expansion, indicate percent of expansion proposed N/A %.
- f. Number of off-street parking spaces existing 0; proposed 72.
- g. Maximum vehicular trips generated per hour 36 (upon completion of project).
- h. If residential, Number and type of housing units:
- | | One Family | Two Family | Multiple Family | Condominium |
|------------|------------|------------|-----------------|-------------|
| Initially | <u>36</u> | | | |
| Ultimately | <u>36</u> | | | |

- i. Dimensions (in feet) of largest proposed structure 35 height; 40 width; 50 length.
- j. Linear feet of frontage along a public thoroughfare project will occupy is? 15 ft.
2. How much natural material (i.e., rock, earth, etc.) will be removed from the site? 0 tons/cubic yards.
3. Will disturbed areas be reclaimed? ☒ Yes ☐ No ☐ N/A
- a. If yes, for what intended purpose is the site being reclaimed? Lawn and Landscaped areas
- b. Will topsoil be stockpiled for reclamation? ☒ Yes ☐ No
- c. Will upper subsoil be stockpiled for reclamation? ☒ Yes ☐ No
4. How many acres of vegetation (trees, shrubs, ground covers) will be removed from site? 18 acres.
5. Will any mature forest (over 100 years old) or other locally-important vegetation be removed by this project?
- ☐ Yes ☒ No
6. If single phase project: Anticipated period of construction 24 months, (including demolition).
7. If multi-phased:
- a. Total number of phases anticipated N/A (number).
- b. Anticipated date of commencement phase 1 _____ month _____ year, (including demolition).
- c. Approximate completion date of final phase _____ month _____ year.
- d. Is phase 1 functionally dependent on subsequent phases? ☐ Yes ☐ No
8. Will blasting occur during construction? ☐ Yes ☒ No
9. Number of jobs generated: during construction? 20 ; after project is complete? 0
10. Number of jobs eliminated by this project? 0
11. Will project require relocation of any projects or facilities? ☐ Yes ☒ No If yes, explain _____
-
12. Is surface liquid waste disposal involved? ☐ Yes ☒ No
- a. If yes, indicate type of waste (sewage, industrial, etc.) and amount _____
- b. Name of water body into which effluent will be discharged _____
13. Is subsurface liquid waste disposal involved? ☐ Yes ☒ No Type _____
14. Will surface area of an existing water body increase or decrease by proposal? ☐ Yes ☒ No
- Explain N/A
-
15. Is project, or any portion of project, located in a 100 year flood plain? ☐ Yes ☒ No
16. Will the project generate solid waste? ☒ Yes ☐ No
- a. If yes, what is the amount per month? 1.25 tons.
- b. If yes, will an existing solid waste facility be used? ☒ Yes ☐ No
- c. If yes, give name Orange County Transfer Station ; location Goshen, NY
- d. Will any wastes not go into a sewage disposal system or into a sanitary landfill? ☐ Yes ☒ No
- e. If Yes, explain _____
-
17. Will the project involve the disposal of solid waste? ☐ Yes ☒ No
- a. If yes, what is the anticipated rate of disposal? _____ tons/month.
- b. If yes, what is the anticipated site life? _____ years.
18. Will project use herbicides or pesticides? ☐ Yes ☒ No
19. Will project routinely produce odors (more than one hour per day)? ☐ Yes ☒ No
20. Will project produce operating noise exceeding the local ambient noise levels? ☐ Yes ☒ No
21. Will project result in an increase in energy use? ☒ Yes ☐ No
- If yes, indicate type(s) Electrical energy/Fuel for 36 - single family homes
-
22. If water supply is from wells, indicate pumping capacity unavailable gallons/minute.
23. Total anticipated water usage per day 14,400 gallons/day.
24. Does project involve Local, State or Federal funding? ☐ Yes ☒ No
- If yes, explain _____

25. Approvals Required:

		Type	Submittal Date
City, Town, Village Board	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<u>Sewer District Extension</u>	<u>Pending</u>
City, Town, Village Planning Board	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<u>Subdivision</u>	<u>3/7/01</u>
City, Town Zoning Board	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		
City, County Health Department	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<u>Realty Subdivision</u>	<u>Pending</u>
Other Local Agencies	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		
Other Regional Agencies	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		
State Agencies	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<u>SPEDES, Sewer Extension</u>	<u>Pending</u>
Federal Agencies	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<u>ACOE NWP #39</u>	<u>Pending</u>

C. ZONING and PLANNING INFORMATION

1. Does proposed action involve a planning or zoning decision? ☒ Yes ☐ No

If Yes, indicate decision required:

☐ zoning amendment ☐ zoning variance ☐ special use permit ☒ subdivision ☐ site plan

☐ new/revision of master plan ☐ resource management plan ☐ other _____

2. What is the zoning classification(s) of the site? R-3 Suburban Residential

3. What is the maximum potential development of the site if developed as permitted by the present zoning?

36-Lots Subdivision

4. What is the proposed zoning of the site? N/A

5. What is the maximum potential development of the site if developed as permitted by the proposed zoning?

N/A

6. Is the proposed action consistent with the recommended uses in adopted local land use plans? ☒ Yes ☐ No

7. What are the predominant land use(s) and zoning classifications within a 1/4 mile radius of proposed action?

Residential

8. Is the proposed action compatible with adjoining/surrounding land uses within a 1/4 mile? ☒ Yes ☐ No

9. If the proposed action is the subdivision of land, how many lots are proposed? 36 -- single family residential lots plus 3 lots

reserved for Stormwater Management Facilities

a. What is the minimum lot size proposed? 0.75 acres

10. Will proposed action require any authorization(s) for the formation of sewer or water districts? ☒ Yes ☐ No

11. Will the proposed action create a demand for any community provided services (recreation, education, police, fire protection)? ☒ Yes ☐ No

a. If yes, is existing capacity sufficient to handle projected demand? ☒ Yes ☐ No

12. Will the proposed action result in the generation of traffic significantly above present levels? ☐ Yes ☒ No

a. If yes, is the existing road network adequate to handle the additional traffic? ☒ Yes ☐ No

D. Informational Details

Attach any additional information as may be needed to clarify your project. If there are, or may be, any adverse impacts associated with your proposal, please discuss such impacts and the measures which you propose to mitigate or avoid them.

E. Verification

I certify that the information provided above is true to the best of my knowledge.

Applicant/Sponsor Name Tectonic Engineering & Surveying Consultants

Date 5-28-03

Signature Edward A. Butts

Title Senior Engineer

If the action is in the Coastal Area, and you are a state agency, complete the Coastal Assessment Form before proceeding with this assessment.

Responsibility of Lead Agency

- In completing the form the reviewer should be guided by the question: Have my responses and determinations been **reasonable**? The reviewer is not expected to be an expert environmental analyst.
- The **Examples** provided are to assist the reviewer by showing types of impacts and wherever possible the threshold of magnitude that would trigger a response in column 2. The examples are generally applicable throughout the State and for most situations. But, for any specific project or site other examples and/or lower thresholds may be appropriate for Potential Large Impact response, thus requiring evaluation in Part 3.
- The impacts of each project, on each site, in each locality, will vary. Therefore, the examples are illustrative and have been offered as guidance. They do not constitute an exhaustive list of impacts and thresholds to answer each question.
- The number of examples per question does not indicate the importance of each question.
- In identifying impacts, consider long term, short term and cumulative effects.

- a. Answer each of the 20 questions in Part 2. Answer **Yes** if there will be any impact.
- b. **Maybe** answers should be considered as **Yes** answers.
- c. If answering **Yes** to a question, then check the appropriate box (column 1 or 2) to indicate the potential size of the impact. If impact threshold equals or exceeds any example provided, check column 2. If impact will occur but threshold is lower than example, check column 1.
- d. Identifying that an impact will be potentially large (column 2) does not mean that it is also necessarily **significant**. Any large impact must be evaluated in Part 3 to determine significance. Identifying an impact in column 2 simply asks that it be looked at further.
- e. If reviewer has doubt about size of the impact, then consider the impact as potentially large and proceed to Part 3.
- f. If a potentially large impact checked in column 2 can be mitigated by change(s) in the project to a small to moderate impact, also check the **Yes** box in column 3. A **No** response indicates that such a reduction is not possible. This must be explained in Part 3.

1. Will the proposed action result in a physical change to the project Site? ☐ NO ☒ YES

- Any construction on slopes of 15% or greater, (15 foot rise per 100 foot of length), or where the general slopes in the project area exceed 10%.
- Construction on land where the depth to the water table is less than 3 feet.
- Construction of paved parking area for 1,000 or more vehicles.
- Construction on land where bedrock is exposed or generally within 3 feet of existing ground surface.
- Construction that will continue for more than 1 year or involve more than one phase or stage.
- Excavation for mining purposes that would remove more than 1,000 tons of natural material (i.e., rock or soil) per year.
- Construction or expansion of a sanitary landfill.
- Construction in a designated floodway.

Other impacts:

Other impacts:

2. Will there be an effect to any unique or unusual land forms found on the site? (i.e., cliffs, dunes, geological formations, etc.)

☒ NO ☐ YES

- **Specific land forms:**

[illegible]

IMPACT ON WATER

3. Will proposed action affect any water body designated as protected?
(Under Articles 15, 24, 25 of the Environmental Conservation Law,
ECL) **[X] NO [] YES**

Examples that would apply to column 2

- Developable area of site contains a protected water body.
- Dredging more than 100 cubic yards of material from channel of a protected stream.
- Extension of utility distribution facilities through a protected water body.
- Construction in a designated freshwater or tidal wetland.
- Other impacts

4. Will proposed action affect any non-protected existing or new body of water? ☒ NO ☐ YES

Examples that would apply to column 2

- A 10% increase or decrease in the surface area of any body of water or more than a 10-acre increase or decrease.
- Construction of a body of water that exceeds 10 acres of surface area.
- Other impacts:

5. Will proposed action affect surface or groundwater quality or quantity? ☒ NO ☐ YES

Examples that would apply to column 2

- Proposed action will require a discharge permit.
- Proposed action requires use of a source of water that does not have approval to serve proposed (project) action.
- Proposed action requires water supply from wells with greater than 45 gallons per minute pumping capacity.
- Construction or operation causing any contamination of a water supply system.
- Proposed action will adversely affect groundwater.
- Liquid effluent will be conveyed off the site to facilities which presently do not exist or have inadequate capacity.
- Proposed action would use water in excess of 20,000 gallons per day.
- Proposed action will likely cause siltation or other discharge into an existing body of water to the extent that there will be an obvious visual contrast to natural conditions.
- Proposed action will require the storage of petroleum or chemical products greater than 1,100 gallons.
- Proposed action will allow residential uses in areas without water and/or sewer services.
- Proposed action locates commercial and/or industrial uses which may require new or expansion of existing waste treatment and/or storage facilities.
 - Other impacts:

6. Will proposed action alter drainage flow or patterns, or surface water runoff? ☐ NO ☒ YES

Examples that would apply to column 2

- Proposed Action would change flood water flows.

1 Small to Moderate Impact	2 Potential Large Impact	3 Can Impact Be Mitigated By Project Change
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/> Yes <input type="checkbox"/> No

 <input type="checkbox"/>	 <input checked="" type="checkbox"/>	 <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

- [illegible]

- The proposed action would sever, cross or limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc.)

- [illegible]

- The permanent foreclosure of a future recreational opportunity.
- A major reduction of an open space important to the community.
- Other impacts:

[illegible]

- Proposed action will cause a greater than 5% increase in the use of any form of energy in the municipality.
- Proposed action will require the creation or extension of an energy transmission or supply system to serve more than 50 single or two-family residences or to serve a major commercial or industrial use.
- Other impacts:

NOISE AND ODOR IMPACTS

17. Will there be objectionable odors, noise, or vibration as a result of the proposed action? ☒ NO ☐ YES

Examples that would apply to column 2

- Blasting within 1,500 feet of a hospital, school or other sensitive facility.
- Odors will occur routinely (more than one hour per day).
- Proposed action will produce operating noise exceeding the local ambient noise levels for noise outside of structures.
- Proposed action will remove natural barriers that would act as a noise screen.
- Other impacts:

IMPACT ON PUBLIC HEALTH

18. Will proposed action affect public health and safety?
☒ NO ☐ YES

Examples that would apply to column 2

- Proposed action may cause a risk of explosion or release of hazardous substances (i.e., oil, pesticides, chemicals, radiation, etc.) in the event of accident or upset conditions, or there may be a chronic low level discharge or emission.
- Proposed action may result in the burial of "hazardous wastes" in any form (i.e., toxic, poisonous, highly reactive, radioactive, irritating, infectious, etc.)
- Storage facilities for one million or more gallons of liquefied natural gas or other flammable liquids.
- Proposed action may result in the excavation or other disturbance within 2,000 feet of a site used for the disposal of solid or hazardous waste.
- Other impacts:

IMPACT ON GROWTH AND CHARACTER OF COMMUNITY OR NEIGHBORHOOD

19. Will proposed action affect the character of the existing community?
☒ NO ☐ YES

Examples that would apply to column 2

- The permanent population of the city, town or village in which the project is located is likely to grow by more than 5%.
- The municipal budget for capital expenditures or operating services will increase by more than 5% per year as a result of this project.
- Proposed action will conflict with officially adopted plans or goals.
- Proposed action will cause a change in the density of land use.
- Proposed action will replace or eliminate existing facilities, structures, or areas of historic importance to the community.
- Development will create a demand for additional community services (e.g., schools, police and fire, etc.)
- Proposed action will set an important precedent for future projects.
- Proposed action will create or eliminate employment.
- Other impacts:

20. Is there, or is there likely to be, public controversy related to potential adverse environmental impacts?
☒ NO ☐ YES

If any action in Part 2 is identified as a potential large impact or if you cannot determine the magnitude of impact, proceed to Part 3

Part 3 – EVALUATION OF THE IMPORTANCE OF IMPACTS

Responsibility of Lead Agency

Part 3 must be prepared if one or more impact(s) is considered to be potentially large, even if the impact(s) may be mitigated.

Instructions

Discuss the following for each impact identified in Column 2 of Part 2:

1. Briefly describe the impact.
2. Describe (if applicable) how the impact could be mitigated or reduced to a small to moderate impact by project change(s).
3. Based on the information available, decide if it is reasonable to conclude that this impact is **important**.

To answer the question of importance, consider:

- The probability of the impact occurring
- The duration of the impact
- Its irreversibility, including permanently lost resources of value
- Whether the impact can or will be controlled
- The regional consequence of the impact
- Its potential divergence from local needs and goals
- Whether known objections to the project relate to this impact

(Continue on attachments)

Item #6. Impacts on drainage flow patterns, or surface water runoff:

The additional runoff is being mitigated with three permanent storm water features to pre-development conditions and quality standards have been installed per requirements.

The impact for erosion has been mitigated through a soil erosion control plan.

The flow patterns have been modified from sheet flow to concentrated flow in a piped system. This has been mitigated by installing a level spreader to return it to sheet flow.
